

GIVEBACKHOMES

Justinvil and his family lost their home during the earthquake of 2010...this is their story!

Meet Justinvil and family

Justinvil works with his sister as a food vendor at the local market in Leveque. He lives with his girlfriend Marita, his three step-sons, Lovens (12), Dalanto (5), and Kendove (4), and his daughter, Darlene (8 months). Marita and Justinvil hope to marry soon, once they have a stable home.

Justinvil fights a daily struggle of not being able to afford housing and worrying about the health and safety of his family.

Justinvil is no stranger to hardship. As a child, he lost one of his eyes due to a devastating infection. Health concerns remain high as he is currently receiving treatment for an infection on his face.

Despite the present hardships, Justinvil is hopeful that the day is approaching when he and his family will have a place to call home. "I believe that day I will be praising the Lord and saying thank you to the Lord, along with everyone else who is working to help us receive this house. This will be a great joy and a great grace for us to receive a home on this day!"
